Tie Down Kit

Subject: A bolt on, front tie down kit is now available.

Units

Affected: All WSES, WSR, WSTX and WZ

Situation: To aid in properly tying down a mower during transport.

The Fix: Disconnect the front castor frame from the mower. Install spacers between the castor and tractor frames using the existing hardware.

P/N's

Affected: Order P/N 95410018. Kit contains 2.
