WS 48 New Clutch

Subject: Clutch change on Large bodied 48" Standers

Units

Affected: WS 48", S/N36995 and above

Situation: WS48's have the slowest blade tip speed of the large Standers. The new clutch and E-B belt setup will increase the blade tip speed to 18,255 fpm for improved cut quality.

The Fix: Units in the field that fall before S/N 36995 can be updated by switching the following components.

Previous components

Clutch 71410001

Belt 71460011

New components

Clutch 71410014

Belt 71460062
